SERVICES AND RATES

Program Design:

We will customize a fitness routine based on your individual needs. This program will allow you to exercise properly on your own. Pictures and descriptions of your routine are provided. This is meant to be a tutorial and educational experience for gym members to safely work out on their own.

Session 1: 90 minutes with evaluation.

- Includes target heart rate, body comp/measurements, fitness evaluation, and brief nutrition consultation

Session 2: 75 minutes.

- Outline of program given, proper form and stretching techniques demonstrated

Session 3: 75 minutes (Client must do one session on their own before this session)

- Perform entire workout, review exercise form, and answer questions. Detailed program with pictures given.

Trainers:

Trainers must hold at least 1 accredited certification and has completed our nationally recognized 3 month internship. These trainers are by no means second rate, they are just new graduates of our program. The majority of our trainers hold a degree in the field, have at least 1 year experience and have completed all required continuing education courses. These trainers can work with anyone from rehabilitation to performance enhancement.

All personal trainers are required to complete courses from our internship program developed by Dr. Robert Inesta, Fit and Functional, and our board of educators. Staff must complete approved external courses and seminars in addition to meeting annual certification requirements. Trainers at Fit4All NY learn science so that they actually understand how things work and how to design programs based on client needs. Through our experience, we have found that even the so-called “experts” are basing programs on principles from the 1950s and are not educated on current research. Another issue in the industry is that people mistake experience for expertise. Our unlimited access to a courses in a nationally recognized education program allows Fit4All NY provide a quality trainer that is 30% cheaper than the same trainers who worked in a big box gym. We hold our staff to a higher standard because we can.
